JUAN CARLOS CONTRERAS OROPEZA
Frontend Developer & Engineering Professional

Front end developer with almost 2 years of experience using Vanilla JS, jQuery, Bootstrap, React, among other Frameworks; always applying the best practices, clean code, and design patterns (Model–view–controller, Atomic Design Methodology). Besides this interest, also I have qualities for leadership and management of teams and/or projects. Open to challenge, able to learn new disciplines quickly, good team-worker, a great worker among multicultural team environments, and independent worker if needed.
